20th. Anniversary Issue

"One of One Thousand"
by Churchill (Gunmakers) Ltd.

20 YEARS ON...

During the past 20 years it has been our pleasure to offer the American Sportsman only the finest in sporting, target and collector firearms — a composite of outstanding shooting values made possible through the unique worldwide purchasing facilities of the Interarms Group of companies.

Our growth has been dependent upon the continued cooperation and patronage of our many thousands of valued customers. To merit this confidence, you may be assured of our intention to continue to bring you the best in quality and to remain second to none in service.

Within our *20th Anniversary Catalog* issue we present the top of the line for 1973. We welcome your inquiries, and cordially invite you to visit our facilities in historic Alexandria, Virginia — or should you be visiting England, our facilities in Manchester, in the heart of the industrial midlands, the largest single building smallarms depot in the world.

P-38

DOUBLE ACTION PISTOL

In keeping with the Walther concept of uncompromised quality, rugged durability, positive performance and utmost reliability, the Walther Model P-38 pistol combines low weight, easy handling and absolute safety with the power of the 9mm Parabellum cartridge. The P-38 is a double action, locked breech semi-automatic pistol with an external hammer. It provides several safety features unique to

The double action system combining the principles of the revolver with the advantages of the modern automatic pistol ... without the disadvantages inherent in either design.

the Walther double-action trigger design. It is equipped with multiple manual and automatic safeties which allow it to be carried safely while loaded and uncocked, though ready for instant use.

The Walther P-38 double-action pistol is available in calibers 9mm Parabellum, 7.65mm .30 Luger and .22 L.R. The standard model is supplied with a rugged non-reflective black finish. It is also avail-

able in a highly polished blued finish in caliber 9mm Parabellum only.

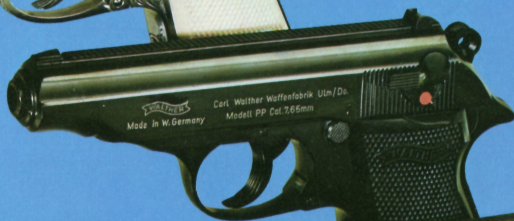

Each Walther P-38 is individually boxed, complete with cleaning rod, extra magazine, instruction manual and factory test target.

The Walther P-38 is also supplied in a deluxe model with exquisite hand engraving with bright blue finish or in a choice of gold, silver or chrome plate. Optional deluxe presentation case is also available.

MODELS PP AND PPK/S AUTOMATIC PISTOLS

CALIBER .22 L.R., .32 ACP, .380 ACP

Walther, the world's finest automatic pistols, are the first choice of professionals throughout the world on all continents. The exclusive Walther double action system combines the principles of the revolver with the advantages of the modern automatic pistols . . . without the disadvantages inherent in either design.

Workmanship, appearance and performance are flawless. Built-in safety features and a simple take-down method combine to make these the most easily maintained and trustworthy of any pistol anywhere. The Walther Model PP and PPK/S Pistols differ only in the overall length of the barrel and slide. Both models offer the same outstanding features:

Safety — the pistol can be carried with loaded chamber and with hammer uncocked, though ready to fire single action or double action.

Center fire models — .32 ACP and .380 ACP — are provided with a live round indicator pin to signal a loaded chamber.

The thumb safety on both models may be engaged while the hammer is in cocked or uncocked position. An internal automatic safety blocks the hammer to preclude accidental striking of the firing pin except with a deliberate pull of the trigger.

Sights are provided with white markings for high visibility in poor light and wide, square notch and post for improved sight picture. An extra magazine with finger rest extension is standard equipment. Rich Walther blue-black finish is standard.

\$155.00 — .22 L.R.

\$149.00 — .32 ACP, .380 ACP

Walther Deluxe Models are available with either Oak Leaf or Scroll pattern hand engraving, with choice of finish in blued steel or gold, silver or chrome plate. These fine examples of the ultimate in fine pistol craftsmanship are without question the finest in the world. Optional presentation case available.

WALTHER

SMALL BORE AND CENTER FIRE TARGET PISTOLS

Walther Match Pistol Model GSP Caliber .22 L.R. \$275.00

Built to conform to ISU and NRA match target pistol on today's market. Carefully developed grip configuration and balance combined with the inherent design superiority and manufacturing excellence establish the GSP as the leading pistol in its class for years to come.

The Model GSP is supplied with trigger pull weight of either 1000 gram (2.2 pounds) or 1360 gram (3 pound).

Walther Match Pistol Model GSP-C Caliber .32 S&W Wadcutter \$275.00

Developed especially to meet the demand for a center-fire pistol having maximum accuracy with minimum recoil. The GSP-C is fitted with 3.0 lb. trigger.

.22 L.R. Conversion Unit For

Walther Model GSP-C Match Pistol \$150.00

The Model GSP-C Match pistol in caliber .32 S&W Wadcutter is complemented by the .22

L.R. Conversion Unit, in this way providing the shooter with a second match pistol at half the cost. The caliber .22 L.R. Conversion Unit for the Model GSP-C consists of a replaceable barrel, slide assembly and two magazines.

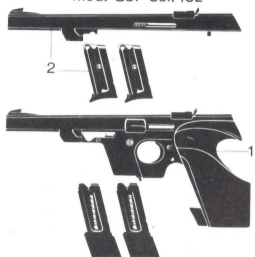

Walther Rapid-Fire Pistol Model OSP Caliber .22 Short \$250.00

Designed and developed specifically to meet the requirements of the Olympic Rapid-Fire Pistol Event, the OSP is rated as the finest production pistol in its class ... without exception.

The Model OSP is supplied with adjustable free style hand rest to provide for individual fit and positive holding. Rear sight is adjustable for windage and elevation. Optional equipment includes "Dry Practice" training trigger and fitted case.

Mod. GSP Cal. .32

(1) GSP-C with 3 lb. trigger. (2) Conversion unit Cal. .22 L.R. (3) Trigger assembly, 2.2 lb. (4) "Dry-practice" trigger.

The GSP-C, caliber .32 S&W Wadcutter, (catalog no. 3382) with trigger weight of 1360g (3 lb.), conversion unit - caliber .22 L.R. (catalog no. 3387), accessory trigger with 1000g (2.2 lbs.) weight and "Dry Fire" practice trigger unit provide a basic "all events" shooting kit.

PRECISION MATCH AIR RIFLES AND PISTOLS

Walther "Olympic Precision" Match Air Rifles and Pistols

Walther offers a customized line of air rifles and pistols capable of precision marksmanship unheard of a generation ago. These have won so many international honors that a complete compilation of same would represent a book in itself. In addition to serious competitive use, Walther Air Guns of all types provide excellent indoor training and are a source of inexpensive recreation.

The Model LP53 Air Pistol \$59.00

A sensibly priced precision target pistol for both beginners and accomplished marksmen. It is equipped with a micrometer adjustable rear sight and adjustable trigger and supplied complete with three sets of front and rear sight blades. Optional equipment includes a barrel weight for improved balance.

Model LP3 Air Pistol

\$109.00

The ultimate precision Target Air Pistol built with the same styling, weight and balance as their counterpart competitive cartridge arms. The totally recoilless LP3 is designed with more built in accuracy than any competition pistol anywhere, at any price. It is equipped with micrometer sights and adjustable trigger.

The Model LGV Special Air Rifle

\$133.00

The Walther LGV is designed to provide Olympic standards of accuracy to make it the very best in precision Air Rifles. It is equipped with precise micrometer adjustable sights, adjustable trigger, adjustable butt plate and a new heavy match stock of select walnut which conforms to the same exacting weight and styling as the Walther Small Bore Target Rifles. The Walther LGV Precision Air Rifle provides precise, yet low cost year round target shooting for both the amateur and the professional.

WALTHER
SPECIAL
TARGET RIFLES

The Walther Match "Prone 400" Target Rifle

\$285.00

This special modification of the famed Walther Olympic Match Grade Model U.I.T. is especially designed for prone position shooting. The Walther "Prone 400" Match Rifle is equipped with the same basic features of the U.I.T. including adjustable butt plate, fully adjustable trigger, slide rail for sling swivel and/or palm rest and walnut stock, plus a special split stock which permits individual adjustment of the cheek rest. Iron sights are not provided. Target scope mount blocks are pre-installed on the barrel to facilitate the mounting of a target telescope.

The Walther "Prone 400" Match Rifle accepts the full range of Walther target accessories available as optional equipment.

The New Walther "Running Boar" Match Rifle

\$245.00

A highly specialized rifle made for a highly specialized type of shooting. This special model was developed to meet a growing demand for a high quality rifle especially designed for this exciting form of competition. The Running Boar matches are attracting both the match shooter who is looking for a new competitive challenge as well as the hunter in quest of a means to sharpen his eye. The Walther, caliber .22 L.R. Running Boar Match Rifle is provided with an adjustable butt plate, thumb hole stock, precision adjustable trigger and a sliding barrel weight which can be adjusted to individual requirements.

Walther "Prone 400" adjustable cheek piece.

PRECISION SMALLBORE MATCH RIFLES

Walther Model KKM International Match Rifle

\$395.00

Point for point, no Olympic Match Rifle can meet Walther's excellence and performance and no competitive model can match its price. It is the top choice of marksmen throughout the world. The Walther Model KKM International Match Rifle is equipped with a precise aperture rear sight with micrometer click adjustments for elevation and windage and an Olympic type front sight with interchangeable post and aperture inserts. A fully adjustable match trigger provides for lateral and longitudinal adjustment as well as for weight of pull and trigger slack. The beautiful, fully utilitarian stock of selected European walnut is fitted with a fully adjustable hook butt plate, hand shelf and palm rest.

Walther Target Rifle Model U.I.T. Special

\$255.00

The Walther Model U.I.T. Special conforms to all NRA and U.I.T. requirements. Its beautifully designed stock, also optionally available at extra cost for left hand shooters, adjusts for both length and drop. The forend is fitted with a guide rail for sling or palm rest. Each rifle is equipped with a fully adjustable aperture sight and groove type front sight. The adjustable match trigger permits adjustment of the trigger position, weight of pull and trigger slack.

SPORT AND VARMINT HUNTING RIFLES

The Walther Model KKJ Sportsman's Series

The only rifle chambered for the popular .22 Hornet cartridge available in the U.S. today. A superb sporting rifle for varmints and small game. Smooth bolt action . . . magazine loaded . . . with two positive safeties. KKJ models are provided with "dove-tail" on the receiver for mounting the Walther quick slide-on scope mounts. Available with standard trigger or with high accuracy double set triggers. Hooded ramp front sight, open tangent, fully adjustable rear. The model KKJ is fitted with a hand checkered walnut stock with high comb and cheek piece and sling swivels.

From \$199.00

Available in calibers .22 L.R., .22 magnum, .22 Hornet; barrel length, 22-1/2"; overall length 41-1/2"; weight 5-1/2 lbs. Magazine capacity 5 rds, except .22 L.R., also 8 rd. magazine available.

Walther Model SSV Single-Shot Varmint Rifle

Expressly designed for long range varmint hunting, the Model SSV provides the ultimate in design and efficiency for precise one-shot target performance. Like the Model KKJ, the SSV is designed to receive the Walther scope mount. A beautifully grained walnut stock is provided with an extra high Monte Carlo type cheek piece and a unique stippled forearm and pistol grip for positive holding. From \$215.00

Available in calibers .22 L.R. and 22 Hornet; barrel length 25-1/2"; overall length 44-1/2"; weight 6-3/4 lbs.

INTERARMS **MARK X** MAUSER SPORTING RIFLES

INTERARMS MARK X MAUSER SPORTING RIFLES

The classic Mauser **MARK X** is one of the few truly customized sporters available anywhere these days at any price. It is painstakingly crafted from the finest raw materials and devoid of all production short cuts, such as, stamped parts, pressed or machined checkering and the like. It is machined to exacting standards, custom finished and carefully assembled and pre-tested. Pride of ownership is enhanced by its reliability of performance, superb accuracy and safe handling combined with its handsome classic lines.

The Mauser **MARK X** is built around the world honored and time tested commercial Mauser action. It is living proof that high quality is still possible at sensible prices. The hammer forged barrel of chrome vanadium steel provides maximum accuracy with minimum weight. The dense grained, fully cured European walnut stock is carefully profiled to pleasing form, hand checkered, beautifully hand finished and complete with custom fittings including quick-detachable swivels. Supplied with a choice of two triggers — the standard single stage, or the optional fully adjustable trigger. An open rear sight, adjustable for both windage and elevation is matched to a ramp mounted front sight with removable hood. The hinged floor plate is a milled steel forging designed for fast, safe unloading.

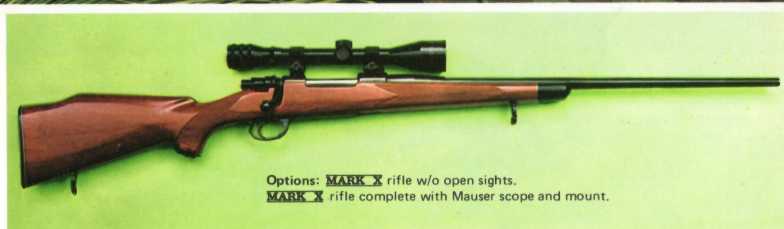

The Mauser **MARK X** Precision Rifle is supplied in eight popular calibers: .22-250, .243 Win., .270 Win., .308 Win., .30-06 Springfield, .25-06 Rem., 7mm Rem. Mag., and .300 Win. Mag.

CUSTOM DOUBLE BARRELED SHOTGUNS

Light gathering
Lucite
front sight

Of the many types of shotguns, none can boast the versatility, weight balance, trim lines and ease of handling of the classic double barrel design. In the **star gauge** we have combined all the best features of the "double" to produce a shotgun of quality, matched only by guns selling at more than twice the cost.

star gauge Shotguns are built exclusively for Interarms by the firm of Victor Aramberry, Spain's foremost producer of quality shotguns since 1885.

star gauge Shotguns are built on a strong box lock action of the famed Ansen & Deeley design with double under-locks, engineered to compensate for wear. All major internal parts, including sear bars, hammers, cocking levers, etc. are completely machined, using select, tough, wear resistant steels which are necessary for long wearing contact surfaces and trouble free positive functioning. The barrels of

premium steel, and the patented demi-bloc construction provide maximum strength. Special attention is given to boring, chambering, mirror-like polishing, and maintenance of absolute concentricity.

The case hardened receiver is forged from nickel chrome alloy steel. Barrels are fitted with a low profile ventilated rib for uniform cooling and dissipation of heat waves, and include a light gathering Lucite front sight. The stock and forearm are crafted from the finest close grained European walnut and carefully fitted to the metal to provide perfect mating of metal and wood. Stocks include a carefully fitted English type non-slip recoil pad and are weather-proofed with a beautiful hand rubbed finish. Both the stock and forearm are hand checkered. **star gauge** Shotguns are available in two basic models, the Standard Model with double triggers and the Deluxe Model with single trigger and automatic ejectors.

MAUSER

MODEL HSc AUTOMATIC PISTOLS

CALIBERS: .32 ACP, .380 ACP

The new *Mauser HSc Automatic Pistol* is an improved version of the famed World War II model. Decades of experience in the design of world famous small arms of all types have created a pistol which fulfills all the expectations placed on the modern handgun. The unique modern design of the *HSc* combined with the high *Mauser* standards of production excellence is your guarantee of safety and reliability.

The *Mauser Model HSc* combines the advantages of both the revolver and the automatic pistols through its double action design which safely permits a cartridge to be carried in the chamber for immediate firing.

The *Model HSc* is built from high alloy steel with painstaking regard for quality of detail, assembly and performance. Its special hammer design prevents the intrusion of dirt or dust into the action when the hammer is cocked.

Among other features which make the *HSc* the most desirable of modern handguns are: ● Advanced Modern Design ● Exceptionally Good Custom Finish ● Simplified Take-down ● Positive Thumb Safety ● Magazine Safety ● Exposed Hammer for Added Safety ● Matted Non-glare Sight Channel ● Checkered, Genuine Walnut Grips ● Intertia-Type Firing Pin ● Choice of Blue or Nickel Finish.

Each *Mauser HSc* pistol is supplied in a fitted case with extra magazine, cleaning brush and factory test target.

Parabellum PISTOLS

"a legend you can hold in your hand"

The fabulous *Parabellum* carries with it more glamour and has evoked more interest than any other single pistol in the world. The first production since WWII has been reinstated by the great Mauser-Werke in Oberndorf, West Germany — its prime pre-war producer. The experts claimed it couldn't be done at twice the price, but here it is in its original unequalled form. A few reasons why the *Parabellum* is still the world's greatest! • Exact execution of the basic design by Georg Luger, produced by Mauser • Two positive safety devices; the standard manual thumb safety, plus the positive grip safety • All parts are forged and precision

machined from special high carbon steel • Superior design, unchanged and unsurpassed in 70 years of trusted service • The best in natural balance and instinctive pointing • Unequalled precision manufacture and fitting assures unrivaled reliability in performance and durability • Perfectly fitting walnut grips with sharp checkering • Beautifully finished with highly polished Mauser commercial blue/black finish • Magazine release, take-down lever, trigger safety and ejectors are finished in the traditional "straw" color • Each *Parabellum* is supplied with spare magazine, cleaning brush, and combination tool.

Markings include the distinctive American Eagle and the famed Mauser banner.

The Mauser *Parabellum* Pistol is not to be confused with lesser look-alike facsimiles by any name, from any source, at any price. Carefully manufactured and assembled to uncompromising pre-war European standards of quality and excellence, the new Mauser *Parabellum* reflects the precision in manufacturing that has always been synonymous with the *Mauser* name. The exacting quality control applied by the Mauser factory assures a pistol worthy of the *Parabellum* name — a legend in itself.

Crafted in Japan under exacting Mauser-Werke quality control, each scope is distinctly marked with the famed *Mauser* banner and twin silver rings ... the indelible hallmark of excellence and your assurance of lifetime reliability. Each *Mauser Rifle Scope* offers not only technical superiority, but classic styling to complement and enhance your favorite rifle.

Among the outstanding features of these scopes are:

- Precision ground, finest quality optics in collimated 10 lens system, hard coated with magnesium fluoride for optimum brightness and resolution.
- Hard black anodized finish on high tensile aluminum alloy, machined to close tolerances.
- Serialized production with each scope numbered and factory registered for added quality control.
- Micrometer windage and elevation adjustments housed in low profile turret provide precise 1/4 minute of angle control with minimum backlash.
- Sighting reticle remains always centered in the field of view.
- Fog proof, water proof, nitrogen filled.
- Large 40mm objective lens provide maximum light gathering capability.
- Complete with felt lined leather lens cover.

The INTERARMS VIRGINIAN SINGLE ACTION REVOLVER

By **Hämmerli** SWITZERLAND

CALIBERS:
.357 Magnum
.45 long Colt

\$159.00

Experts choose the *Virginian* by *Hammerli* because of the assurance that they can rely on precision and quality from the famous Swiss firm of master gunmakers. They know that in a market where many single actions are available in every price range, the wise choice for a lifetime of shooting pleasure and pride of ownership is to buy "the best." In the long run, the best is the *Virginian*.

The best single action revolver in the world featuring among other advantages the patented *Hammerli* triple action *Swissafe* Safety System • crisp trigger pull • precision "Olympic Match" barrel finished in traditional mirror blue • chromed trigger guard and back strap • classic case hardening • select walnut, one piece stock.

Special Feature: The unique safety system which precludes the firing pin striking the cartridge accidentally. A special base pin safety arrangement permits the base pin to effectively block the hammer when in "safe" position.
